## County Doctors Endorse Red Cross Blood Plan

**ANTI-BRITISH SIGNS IN ATHENS**—Hundreds of Greek students carry anti-British signs in a demonstration demanding that Britain withdraw from the island of Cyprus. The demonstration is part of a wave of nationalist and anti-colonialist disorder which has swept through the Middle East and Mediterranean area.

## Ellsworth Firemen Mark Organization At Dinner

A graduation banquet Saturday night in the Ellsworth Presbyterian Church commemorated the formation of that township's first fire department.

Composed of 19 firemen, four officers and a new regulation two-and-one-half ton truck, which is to be delivered in the near future, the volunteer department was first organized last year under the over-all directorship of Walter T. Banning, state fire department instructor.

## Hoover Advises Reconsidering U.S. Policies

NEW YORK (AP)—"Dangerous overstraining" of American economy and continental Europe's "inertia" in rearming, Herbert Hoover says, make it advisable that Congress reconsider U.S. foreign policies.

The former president, calling for a study of alternative actions, proposes that American ground forces eventually be withdrawn from Europe while this country concentrates on air and sea power. He said an exception would be made for those U.S. forces needed to protect American air bases outside Atlantic Pact nations.

Mr. Hoover's appeal that Congress recalculate the "risk of war or economic degeneration" was made yesterday in a nationwide television and radio address over the Columbia Broadcasting System.

He indicated that such a re-study of national policy would amount to the re-opening of "The Great Debate" of a year ago in the light of events that have happened since.

In December, 1950, Mr. Hoover joined in that foreign policy debate in a speech in which he summoned Americans to defend the Western Hemisphere as a "Gibraltar" of freedom.

Recommendations in yesterday's speech closely paralleled those Mr. Hoover made in late 1950.

The 77-year-old former president reviewed events of the past year in Europe and Asia. He was critical of United Nations policy in Korea and called for revision of American relations to the U.N. charter.

## Faces Lie-Detector In Death Of Baby

EAST LIVERPOOL — Columbiana County Coroner E. R. Sturgis, has asked a lie-detector test for Mrs. Martha Cecil Schacht held in connection with the death of her four-day-old baby girl.

The baby's body was found in a suitcase in an East Liverpool dump Friday.

The mother, an East Liverpool pottery worker, said the infant was born in City Hospital Oct. 28 and died Nov. 1 enroute home in a taxi when Mrs. Schacht's father accidentally smothered her. She said she became frightened and put the body in a suitcase and left it in a field near her father's home.

Mrs. Schacht, who said she was divorced four years ago, is the mother of three other children. She was held on \$5,000 bail.

## Allies Hand Reds Plan On Prisoners

MUNSAN, Korea (AP)—A detailed working draft of a 14-point U.N. plan for exchanging prisoners of war in Korea was handed Communist truce negotiators today. The Reds promised to study the proposal.

The prisoner exchange plan incorporates all basic points of the allied proposal submitted Jan. 8, including voluntary repatriation which the Reds have said they never will accept.

It is a companion piece to the detailed draft on truce supervision given the Communists Sunday.

Staff officers were scheduled to start work on this allied draft Monday, but the Communists asked for and got a 24-hour postponement.

U.S. Sabre jets exchanged firing passes today with 50 Communist MIG-15 jets over North Korea but no damage claims were made by the allied pilots.

It was the first reported appearance of the MIGs since they lost 10 in a sky battle Friday. Overcast skies sharply curtailed allied air strikes.

Only light patrol contact was reported on the frozen 145-mile battlefield.

## Maybank Against Naming Truman Democratic Senator Favors Sen. Russell

WASHINGTON (AP)—Senator Maybank (D-SC), a key man in Congress on many administration measures, said today he is against another term for President Truman.

And Maybank, Democratic National Committee man from South Carolina, predicted "most of the South" will unite behind Senator Russell of Georgia for the party's presidential nomination.

"As far as I am concerned, I am for Dick Russell first, last and all the way," Maybank told a reported.

He has said that much before. But he added this to the first time—1948 included—he publicly has voiced opposition to nominating Mr. Truman.

The president hasn't disclosed whether he will run again. Over the weekend, Democratic leaders from 13 Midwestern states adopted a resolution calling on the president to be a candidate. They also endorsed Vice President Barkley for another term.

Maybank is chairman of the Senate Banking Committee, which passes on economic controls legislation, defense production measures and other important bills. The committee also recommends Senate approval or rejection of the men Mr. Truman nominates for many top posts.

Maybank has supported a good many administration programs which came to his committee, but he has opposed some, too. Outside the committee's sphere, he—like virtually all southern lawmakers—has fought the President's controversial civil rights program.

While the senator declined to say just why he is against nominating Mr. Truman again, it is known that his opposition is not based solely on the Civil Rights issue.

Of late, Maybank has complained openly that his banking committee has not been consulted by the White House in advance of important nominations by the President.

## None Hurt In Two Area Auto Mishaps

No one was injured in two district highway accidents investigated by State Highway Patrolmen over the weekend.

At 11:45 a.m. Saturday two panel trucks operated by John D. Chambers, 3, of RD 2, Salem and Robert E. Metzger, 29, of RD 1, Belmont met in a head-on collision on Route 62, just outside the Alliance city limits.

Both vehicles sustained considerable damage. Patrolmen said that Chambers was attempting to pass another car when the mishap occurred.

Cars driven by George R. Florin 35, of East Liverpool and Roy E. Duffield, 35, of Wellsville were involved in an accident at 8:30 p.m. Sunday, about one-half mile south of Lisbon. Patrolmen reported that Duffield's auto was stopped on the highway and Florin's car struck it from the rear.

## One-Way Plan Approved At Sunday Meeting

Previous Objections Withdrawn; Armed Forces To Get Plasma

Columbiana County's blood potential was made available to the Red Cross defense program Sunday by vote of the County Medical Society, meeting in Lisbon.

The action clears the way for the county's four Red Cross Chapters to begin in preparing donor lists for a yearly quota of 2,250 pints.

All blood taken will go to the Pittsburgh defense district for shipment overseas to U. S. troops in Korea.

This so-called "one way" plan was a point of difference between the Medical Society and the Red Cross and delayed initiation of the local program.

County physicians fought for inclusion in the Cleveland district's national blood program—a "two-way" plan—which divides the blood taken between armed services and civilian population. The society's earlier resolution offered cooperation only if the county could be placed in the "two-way" area. It was rescinded by Sunday's vote.

National Red Cross headquarters explained that the districts were set up on a basis of donor population and any shift of county areas from one district to another would disrupt the plan. However, national headquarters promised consideration of redistricting if Pittsburgh defense district blood supplies prove adequate. Using that promise of arbitration as a pivot, the physicians voted unanimously to go ahead with the "one-way" plan.

The vote followed a review of the problem by Dr. Julien Jones of Lisbon, president, and statements from the floor members. All favored a blood program but were cool toward a set-up which forces the county to give away all blood taken.

Dr. Paul H. Beaver of Leetonia felt the "one-way" plan jeopardizes the donor potential for civilian needs. "It takes 30 people at home to keep a man on the front and we as doctors owe a responsibility to our local community. It seems strange that the Red Cross has two forms of administration," he said. Dr. J. W. Schoolnick of East Liverpool said Columbiana County and Cincinnati are the only areas in

## Rt. 170 Repair Set For Next Summer

Highway Director T. J. Kauer said today that a four-mile strip of Route 170 probably would be completed this summer to remedy the traffic snarls created by traffic pouring onto weak roads from the Pennsylvania turnpike.

His comments came in answer to sharp criticism by Pennsylvania officials who said that Ohio officials had "failed to live up to their agreement" and take steps to meet the traffic problems all agreed would arise when the western end of the Pennsylvania super highway was opened.

The problem became acute last Dec. 26 when Pennsylvania permitted all traffic, including heavy trucks, to enter Ohio from the Pennsylvania turnpike at Gatesay, O.

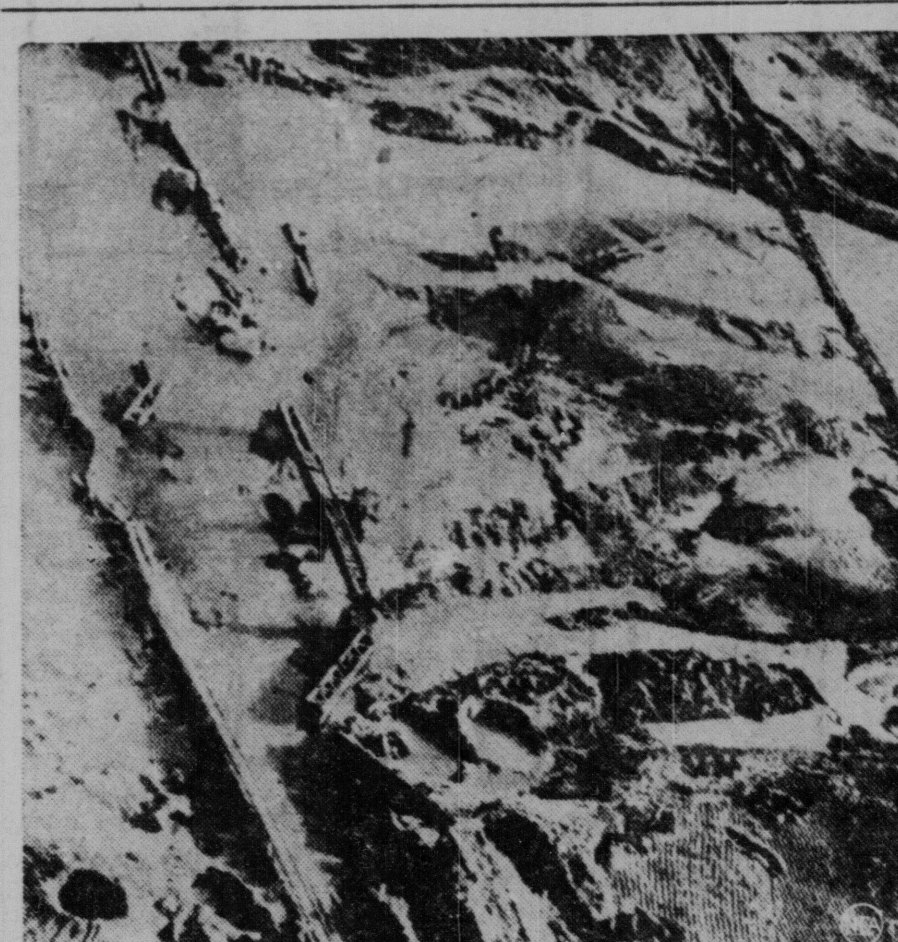

The little Pennsylvania-built access road to the Ohio line and Ohio secondary roads 90 and 170 crumbled within 10 days because they were not designed to carry such large loads.

Kauer said original estimates were that about 2,000 cars and light trucks would come off the turnpike daily, but that the average before Ohio cut load limits was 6,000 to 7,000 vehicles of all types.

The load limit reduction now makes big trucks get off the turnpike at Beaver Valley, Pa., to reach Ohio. This cut tolls on the Pennsylvania turnpike.

## Ohio Floods Chase 7,000 From Homes

**NO JOY IN "REDVILLE"**—U. S. Navy pilots off the aircraft carrier USS Essex succeeded in making life miserable for the Communists by knocking out huge chunks of this bridge in North Korea. Even the two by-pass bridges show signs of destruction where allied bombs found their marks. Meanwhile the Communist China radio claims that American planes have crossed the Manchurian border on three different dates.

## Sudden Downdraft Drops Plane 2,200 Feet; 5 Passengers Hurt

CLEVELAND (AP)—Eighteen passengers on a Capital Airlines coach plane were tossed about like peas in a pod and five were injured today when a sudden downdraft caused the ship to drop 2,200 feet before leveling off.

The five were taken to nearby Berea Community Hospital after pilot William Mason of Washington radioed for a doctor and an ambulance to meet the plane on its arrival at Cleveland Hopkins Municipal airport.

One person was released after treatment and none of the others was believed injured seriously.

**Over East Liverpool**  
The plane, Flight 805 from Washington to Chicago via Pittsburgh and Cleveland, was flying near East Liverpool, O., at 6,000 feet when the accident happened.

Arthur J. Gerard, 40, of Kawkawlin, Mich., who suffered a possible fractured rib, said "it was a miracle no one was killed." "We were all sleeping," said Gerard. "I woke up with a feeling I was going forward, then I hit the ceiling. The next thing I knew I was in this aisle, partly blacked out."

John L. Lewis, boss of the coal miners' union, is on the verge of making new contract demands on the mine owners. His two-year contract expires at the end of March and, beginning next Thursday, he can demand negotiations.

Some observers think that Lewis may delay a move for more pay, and possibly greater welfare money for miners. Right now, he is busy trying to get Congress to enact tighter mine safety laws.

Lewis also might want to wait and see what his rival, CIO President Philip Murray, gets in the current steel industry wage case before making his own move.

Murray's demands for an 18½ cent average pay boost for steel workers are before a panel of the Wage Stabilization Board (WSB) for a recommended compromise.

## No Motive Found For Slaying Child

PORTLAND, Ore., (AP)—Detectives said today they had found no motive for the slaying of Sherrie Ellen Kader, 3, whose mother was charged with murder.

The little girl's bruised body was found in a water-filled sump Saturday. Police were led there by the mother, Mrs. Jada Z. Kader, 21.

Police said Mrs. Kader told conflicting stories about how the child died. At first she said Sherrie was killed by her sister, Vickie, 4, while the two were playing.

Later she accused her Chinese stepfather, George Sing, 46. He was held as a material witness but denied the accusation.

Mrs. Kader Sunday returned to her story that Vickie killed Sherrie, police said. They said she told them she dumped the body in the sump because she was frightened.

The coroner reported the girl had drowned.

## Six Deaths Reported; Property Damage High

Flood waters of the muddy Ohio River, swollen by several days of steady rain, churned over the lowlands today, chasing about 7,000 people from their Ohio and West Virginia homes.

The Ohio and other flooding state streams chalked up six known deaths and untold property damage in the first 36 hours of their rapid rise.

In Salem, the persistent rainfall created damages of a lesser nature. Backed-up sanitary sewers flooded cellars of residences, businesses and other establishments. City workers, firemen and individual homeowners spent a slimy weekend pumping out basements.

The condition in the city was due mainly to the fact that many homes and buildings have connected their outside rain drains to their sanitary sewers. The sewers, built to accommodate only sanitary sewage, were inadequate to cope with excess water, thereby causing the waste material and rain water to back up through basement drains.

**Salem Area Affected**

Streams in the Salem district overflowed their banks and in several instances flooded roads. Highways at Elkton and Franklin Square were still under water late last night but the State Highway Patrol reported today that the waters were receding.

But elsewhere in Ohio and neighboring states the situation is much more grim. From East Liverpool to Cincinnati, the Ohio neared or passed flood stage early today.

The area from East Liverpool to Wheeling was the first to feel the effects of the flood. Most of the 800,000 population of the twin Ohio cities of Stratton and Empire, near East Liverpool, are being evacuated. More than eight feet of water stood in the village streets.

Mayor Joe C. Hartline declared a state of emergency in Marietta yesterday and ordered all amusement places and bars closed by 7 p.m. The Ohio River had risen 36.3 feet early today. Flood stage is 36 feet.

More than 50 families were evacuated from low sections in Marietta yesterday and the movement continued today. A crest of 47.48 feet by 9 a.m. Tuesday. Property damage caused by the flood has not yet been estimated. Industrial loss along the Ohio may be heavy. The Wheeling Steel Corp. plant at Steubenville shut its open hearth furnaces as did the Ohio River Steel Co. at Toronto. Hundreds of persons were laid off temporarily.

The Scioto River, which joins the Ohio at Portsmouth, overflowed its banks in many spots in central Ohio. Some 200 families

**U. N. Action Sought On Red Move In Asia**

PARIS (AP)—The United States, Britain and France today formally announced that they would demand United Nations action in the event of Chinese Communist or Russian aggression in southeast Asia.

John Sherman Cooper of the U. S. said such aggression would be a matter for "most urgent and earnest consideration by the United Nations." Selwyn Lloyd of Britain immediately declared that his government associated itself with this "important statement."

Francis Lacoste of France said his country would demand immediate and effective intervention from the U. N. if the Chinese Reds moved against Indo-China.

The three Western spokesmen made their declarations during a U. N. debate on the question of condemning Russia for allegedly violating her 1945 treaty with Nationalist China.

Cooper said he had been instructed by the U. S. government to "state clearly that any such Communist aggression in southeast Asia would in the view of my government be a matter of direct and grave concern which would require the most urgent and earnest consideration by the United Nations."

**Potato Prices Hiked**  
WASHINGTON (AP)—Limited percentage markups, aimed at reducing prices of white potatoes, went into effect in retail stores today. These markups follow the fixing of price ceilings at the farm level Jan. 19. The office of price stabilization estimates the reductions might average 5 to 10 per cent at the farm levels and slightly less than that to consumers.

## American Homes Too Airtight

### Ventilation Sacrificed For Heating Efficiency

THE AVERAGE American home erected within the last 10 to 15 years has turned out to be too nearly air-tight. It has been so snugly constructed in an effort to step up the efficiency of its heating plant, as well as to keep it comfortable in summer, that it is often a poorly ventilated house.

This results in some serious trouble. Letters from many owners of newer homes tell of paint blistering and peeling off their houses, wallpaper staining and loosening, window and door hardware corroding and rusting.

While condensation of excess moisture is the immediate cause of such damage, the real villain in the case is lack of controlled ventilation.

It used to be that houses leaked enough air through floor and wall cracks and around windows and doors to keep them adequately ventilated. One ordinary, well-fitted window, for example, will leak enough air in even a 20-mile wind (which isn't much of a blow) to change the air in a good-sized room every hour.

BECAUSE that means wasted heat, weatherstripping and storm sash are used to cut that leakage down to a negligible minimum. Then the use of large sheets of modern building materials, such as plywood or gypsum sheathing, tough sisal-felted building papers, blankets of insulation and tight vapor seals in walls and ceilings have largely eliminated cracks to a point where houses can't breathe like they used to.

"Such a good job has been done with modern building methods," observes one heating expert "that the normal air leakage in a new house has been reduced from one-third to one-half the amount found in an older house. Modern weather-tight houses may have as little as one-half an air change each hour. This often is inadequate to supply the amount of outside air the family needs for its comfort and health.

That commentator, Sheldon Coleman, Wichita, Kan., manufacturer of heating equipment contends that the modern house needs not only a heating plant but a heating and ventilating system.

HEATING in winter and coolness in summer are not enough for complete comfort. Seven requisites for proper indoor air are: (1) satisfactory temperature, (2) adequate density, (3) proper amount of water vapor, (4) constant but imperceptible motion (5) freedom from dust, dirt,

smoke and pollens, (6) freedom from germs and bacteria, and (7) lack of staleness, which means fresh air.

Thermostatic control, humidification, circulation and filtering can meet most of those requirements. For fresh air, you may say that's easy, I open the window.

That provides fresh air, all right, but it upsets all the other factors. It plays hob with the thermostat, wastes fuel; increases or decreases the humidity, depending on the weather; brings in foreign matter, dust, pollen, etc.

The ideal method, if you use a circulating warm air system, would be to bring the fresh air into the heating plant where it could be tempered and filtered to suit.

Of course, there is nothing new in doing that in schools and large commercial installations, but costs have been a restraining factor in adopting the system for homes.

COLEMAN suggests that the cost of installing a fresh air duct can be circumvented by making use of the reservoir of fresh air contained in a ventilated attic. By removing the fire-stops between two studs, an air shaft between heater room and attic can be readily created. He says such a shaft can be piped to a heating plant for as little as \$5 when the plant is being installed.

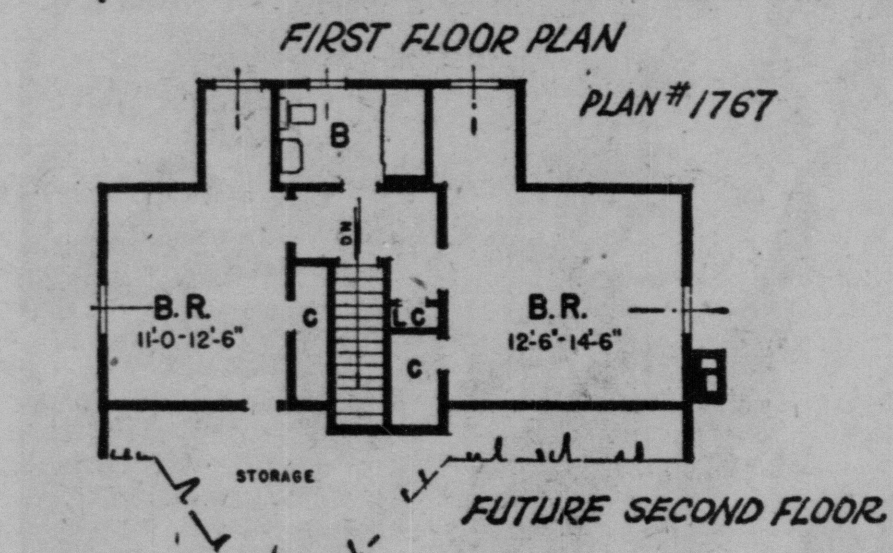

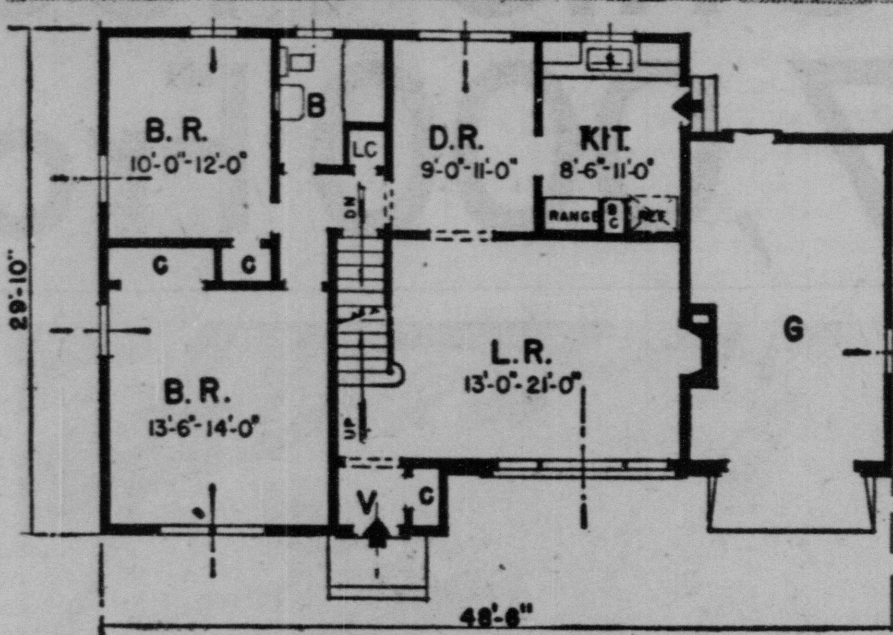

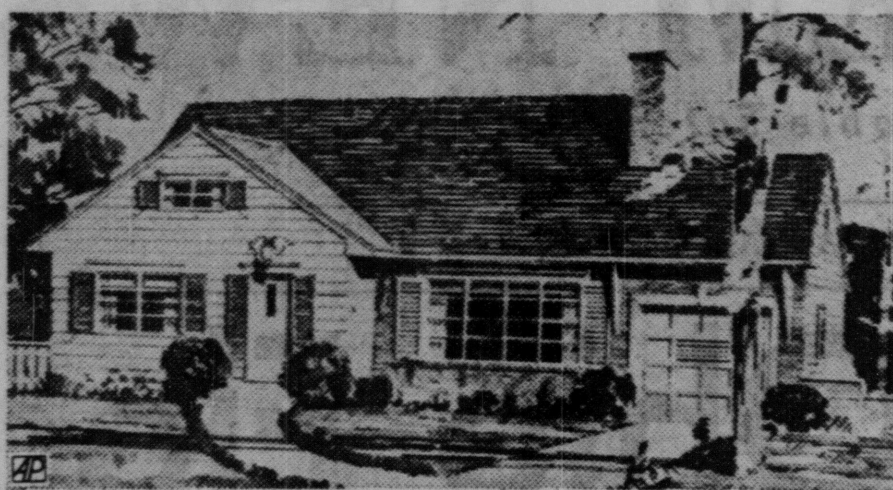

This outside air can be controlled and fed automatically into the heating plant, where it is warmed, filtered and humidified for circulation through the house. Drafts and heat wastage from open windows are eliminated. Coleman has used this wrinkle in connection with high velocity blend-air installations in houses and finds it supplies up to 5,000 cubic feet of fresh air per hour.

THAT VOLUME, plus residual leakage—since no house is absolutely air tight—is considered adequate for the average house. The ventilating requirement for oxygen is about 10 cubic feet of air per minute per person. For cooking and other household odors, there should be a movement of 25 cubic feet per minute per person according to engineers, so there still is a big place for ventilating fans.

However, the result of Coleman's attic shaft idea is a theoretical pressurized condition in the house with air moving outward through whatever leakage cracks there may be—exfiltration instead of infiltration.

Excess humidity tends to be removed from the house, because the fresh air from the outside, on being heated and blended, has the capacity to pick up surplus moisture from indoors and carry it outdoors.

It should be easy to accelerate such movement by opening a window slightly only on the lee side of the house—opposite the wind direction.

AN EXPANSIBLE HOUSE, five rooms and bath on the first floor provide a complete dwelling, while space upstairs can be finished later to add two more bedrooms, extra bath and abundant storage. This is Plan 1776 by William G. Chirgott, 968 Stuyvesant Ave., Union, N. J. The house covers 1,020 square feet, includes a full basement and contains 21,400 cubic feet—figures for estimating.

### Two Building Permits Issued in Past Week

Two building permits were issued by Mayor Harry M. Vincent during the past week.

Tom Nedelka of 947 Newgarden St. will have a cement block rug and furniture cleaning shop built at the rear of his residence at an estimated cost of \$2,500.

Clifford J. Callahan secured a permit for the construction of a frame addition to his home on Cleveland St. at a cost of \$900.

### Quizzing The Gardener

Q—I have access to several pounds of used coffee grounds daily from a restaurant. Are they of value to help break up a heavy clay vegetable garden soil?

A—Yes—coffee grounds or any similar organic matter would greatly improve the tilth of the soil. Work them well into the soil and add a fertilizer strong in nitrogen to assist in the decomposition of the grounds. A three-inch layer allowed to remain over winter would be too much.

Q—What causes moldy substance to appear on the soil of several of my house plants?

A—A heavy soil plus overwatering is the usual cause. Be sure the pots have a drainage hole in the bottom, scrape off the mold, cover soil with an eighth-inch of sand, water soil only when dry—but syringe plant tops frequently.

Q—Where can one secure some information as to how to pronounce plant names properly? This subject arises regularly in our garden club.

A—The various garden diction-

aries and encyclopedias invariably provide the proper pronunciation with the information relative to the plant. One of the simplest means of acquiring this information is the inexpensive little booklet, "New Pronouncing Dictionary of Plant Names." It may be secured from the Florists' Publishing Co., 508 S. Dearborn St., Chicago 4, Illinois.

Q—I have a number of regalia which have done well for me. What should I do with the small bulbs which form around the stalk at the surface and when should I plant the seed?

A—The small bulbs should be removed without disturbing the parent bulb. These may be planted by themselves and will attain flowering size in a couple of years under good conditions. It would be wise to plant them two inches deep with a mulch of litter until they develop into large bulbs when they may be planted deeper. Seed of the regal lily may be sown in late fall or in the spring. A mixture of leaf mold and sand make a satisfactory compost for growing the seed. When the seedlings come up they may need to be thinned in order to give the plants room to develop properly.

Q—Will geranium cuttings rooted last August bloom indoors?

A—If geraniums are to bloom indoors this winter, they must have a window which receives direct sunlight all day and where a day temperature of 70 to 75 degrees is the rule. Frequent weekly soaking of the soil is important. Geraniums should not stand in water.

Q—I have planted a small wisteria plant to grow it as a tree, not a vine. Would you please tell me how it should be pruned?

A—Tie its stem to a stout stake and when it reaches the desired height cut off the top stem. Permit no lateral branches to develop from the base of the plant nor from the part of the stem that is to be the "trunk" of the tree. Laterals that develop from the upper part (and which will form the "head" of the "tree") should have their tips pinched out in summer when they are a foot or fifteen inches long and in winter they should be cut back to a length of six inches. This procedure should be repeated yearly until the "head" is of the size you want, then winter pruning should consist of cutting the previous year's laterals back to within one inch of their bases. Summer pruning should be practiced as before.

## How To Set Up Plumbing For Wash Machine

THE MODERN automatic electric washing machine for which your wife has been hinting, asking and begging, involves more than placing it in the corner of the laundry room and turning it on. The dealer from whom the machine is purchased will see to setting it up and adjusting the legs to make it level. He'll anchor it to the floor, if necessary, but he won't install the necessary plumbing and wiring. That's your job.

Before the machine can be operated, you must have outlets on both the cold and hot water pipes in your basement, with fittings on the ends to take hose connections. The best place to tap into the water lines is just above the laundry tubs as shown in the sketch.

First, shut off the water and then remove the galvanized iron pipe by uncrowding the union on the faucet. The unscrew the entire pipe from the elbow at the top. Your hardware dealer will cut the pipe and remove a section and thread the ends so that you can install a "T" and have the same overall length as before the pipe was cut.

If one or both of the water lines are copper, the procedure will be a little different. Hack-saw the pipe in two and remove the short lower section from the tub fixture. Then put a galvanized "T" into the fixture and a short nipple on top and replace the short section of copper pipe. Mark where to saw out the recess so the two copper ends will butt together.

Your hardware man will have copper collars for this purpose. Remove the short section and slip the collar over it and sweat it on with solder and a blow torch.

If the overhead pipe is rigidly secured at the ceiling, remove brackets so that smaller section with sleeve may be slipped over upper pipe and screwed onto the tub fixture. Sweat the top section of the pipe into the collar and continue assembly of pipe and fittings as shown in the sketch. Be sure all screwed joints are liberally coated with sealing compound.

Some makes of machine have a circuit-breaker or safety valve in the end of the plug which cuts off the current in the event that the machine is overloaded. This is actuated by heat from the overloaded wire. For this reason you should never plug in next to a light as the light will heat the circuit-breaker and activate it. Install a wall socket away from the light.

### Hints On Installing New Thresholds

WORN thresholds are not only unsightly but dangerous. Replacement is simple, since ready-made thresholds are obtainable which only require fitting. You can get them from your lumberman or building material dealer.

The first step is to remove the old wood which can be split away with a cold chisel and pried out with a bar. Be careful not to scar the finish of the adjoining floor.

After the old threshold has been removed, clean out the corners, remove the old nails and make sure the floor under the new one will be smooth. Thresholds are made from either maple or oak and are beveled to form shoulders on each side but are not fitted to the opening of the door. If you have power tools, you can make this item yourself from the dimensions of the worn piece which you are replacing.

Fitting the new threshold can

be done by first making a paper pattern which fits and then transferring it to the wood. Or you can lay the wood alongside the opening of the door and, with a pencil, extend the lines of the opening across.

Be careful in fitting so the new wood won't be too small and form pockets for dirt to settle in. And don't make it so large that it has to be driven into place. This might change the shape of the door opening and cause the door itself to stick.

Use a fine-tooth saw for cutting this hardwood to minimize rough edges and try for a smooth, snug fit. Keep all cuts straight and at right angles to the wood to eliminate pockets.

It is well to drill for nails in hard wood to avoid splitting the wood and bending the nails. Use eight penny nails and if you don't drill for them, soap the nails and confine them to the shoulder of the threshold to avoid splitting across the center. After the new piece is in place and nailed down, use a nail-set to drive the nails below the surface and fill the holes with a plastic wood filler. Then apply clear varnish.

### Worn Stair Carpets Are Home Hazards

WORN stair coverings are dangerous, particularly for women wearing high heels. Therefore, it behooves every home-owner to keep his stair carpet in good condition, replacing badly-worn carpet with new.

The following suggestions will assure you of a professional-looking job.

In ordering the runner, figure a foot and a half for each tread and add six inches to the overall length for shrinkage when you have it cleaned later. Ready-made pads are available or you can make them yourself from 32-ounce carpet lining.

Be sure to clean and inspect the bare stairway. Loose steps should be nailed down with eight-penny finishing nails. Counter-sink all nails and remove spags and splinters that might cause wear.

Lay chalk guide lines on each step to keep the runner straight then start the pads which should be about four inches narrower than the runner. Center the pads on the step and leave a space between pad and riser as indicated in sketch. After back edge is tacked down, draw pad over leading edge or nosing of step and tack underneath. Never into the nosing.

Start laying the runner from the top. Tack it next to the hall carpet and let it run down the stair, fitting it loosely into each step. Now start from the top and tack at the first step. Pull the runner tight and put four tacks into each side as in the sketch, two in the step and two in the riser on each side. Keep the runner tight and be sure you're following the guides so it will be straight.

When you reach the bottom, fold under the excess carpeting and tack it all the way across the riser. Return to the top step and tack it all the way across the bottom of the riser and repeat on each step all the way down.

There is no point in tacking the carpet under the leading edge of the step. Later, when the runner begins to show wear, it may be removed and turned end for end. The excess which was turned under at first will be fastened next to the hall carpet upstairs and the worn areas will be at the back edge of each step.

Richebourg, who was only 23 inches high, was one of the smallest dwarfs who ever lived. He smuggled dispatches in and out of Paris during the French revolution, disguised as a baby in a nurse's arms. He was 90 years old when he died.

## Orchard Men Meet Thursday

## Village Officials At Kiwanis Club Meeting

COLUMBIANA — Columbiana and Mahoning county orchardists will hold their annual winter meeting at Fairfield Centralized School Thursday, beginning at 10 a.m.

The meeting always attracts many orchard men from Eastern Ohio and Western Pennsylvania.

Problems concerning help for harvesting fruit crops may be touched upon, as thousands of bushels of apples are said to have been lost in the area last fall for want of sufficient help in harvesting.

After the showing of a motion picture in opening the meeting Thursday, Blair Janson, extension plant pathologist of Ohio State University, will discuss "Use of Newer Spray Materials to Promote Better Foliage," and T. L. White, Geauga county orchardist, will discuss "Our Experience in Producing Fruit."

Vernon Patterson, extension horticulturist at O.S.U., will lead a panel discussion on "Experience in Use of Materials for Thinning and Increasing Color of Apples," with Dan Simmons, Mason McConnell, Frank Adams, Walter Mahan and Russell France, panel members, participating.

Sessions will suspend at 12:30 p.m. for lunch in the school cafeteria.

At 1:30 p.m., Mr. White will discuss "Our Experience in Marketing Apples," after which Jerome Hull and Paul Muckley will give the report of the marketing committee. In conclusion, Mr. Patterson will speak on "Pruning to Improve Fruit Size and Quality."

IN ACCORDANCE with its custom, the newly-elected mayor and council of Columbiana will be guests of the Kiwanis Club at

its meeting this evening, when Attorney George H. Gentithes of Warren, who has been a special agent of the U.S. Counter Intelligence Corps, will be the speaker.

Specializing in labor law, Gentithes will dwell upon present subversive dangers. He is a member of the Warren Kiwanis Club, president of the Warren Junior Chamber of Commerce, American Legion and V.F.W. Dr. C. W. Dewalt of the Columbiana club, district treasurer of Kiwanis, was the speaker at a recent inter-club meeting in downtown Youngstown.

Members of the Rotary Club publicity committee will have parts in a playlet, "That Spells Rotary," to be presented at the club meeting this evening. C. L. Harper, assistant manager of Firestone Farms, is program chairman.

A SHORT CIRCUIT in the electric current distribution system at South Main and Railroad streets shortly after 2 a.m. Saturday put the town in darkness, but the electric department had made repairs in about an hour.

Good Cheer Club of Jerusalem Lutheran Church will meet at the home of Clyde Douglas, north of Firestone Park, at 8 p.m. Tuesday.

THE TORCH CLUB will play New Springfield here this evening, and the Columbiana Senior Hi-Y will go to Canfield. The Columbiana Clippers play Sebring here tomorrow evening.

The Youngstown Sheet & Tube Chorus will appear in the High School auditorium Wednesday evening in a benefit for the Music Boosters' Club, organized to promote music in the schools.

Miss Vivian Dolores Grant, formerly of Columbiana, was married to Lieut. George N. Wesel at Quartzsite, Ariz., Tuesday, Jan. 1. The bride is a daughter of Mrs. Delpha Grant, now of Redlands, Calif.

Mrs. Harvey Bair of Columbiana has received word of the death of a brother, Oliver C. Webb, aged 94, which occurred at the Woodland Rest Home, Seattle, Wash. Mr. Webb was a retired mine inspector, formerly of Butte, Mont., and Alaska.

DAD'S MAD—Pretty 13-year old Nancy Swiger Mullens of Columbus, O., looks forlorn as her irate father, Guy Swiger, files in a Columbus court for an annulment of Nancy's marriage to Norman Mullens Jr., 18. He charges that the bridegroom's mother drove the couple to Richmond, Ind., and persuaded the seventh grader to give her age as 18 for the marriage Dec. 10.

## Washingtonville

About 80 members and their families were present at the caserole dinner at the Trinity Lutheran Church Wednesday evening.

Rev. S. D. Myers, pastor had charge of the congregation meeting which followed the dinner.

Myron DeJane, secretary, read the minutes of last year's meeting. The report given by Joseph Woods, treasurer, and different organizations of the church showed all obligations of the church were met and all bills paid with a generous balance in the treasuries.

Ivan Davis, Joseph Woods and Donald Vignon, retiring councilmen, were re-elected for a three-year term. Mrs. Emile Guchemond was elected organist; Marie Davis assistant organist; Dale Guchemond was elected chorister and Mrs. R. R. McKenzie assistant chorister were installed last Sunday.

Rev. Myers is now a member of this congregation by letter from the Alliance church.

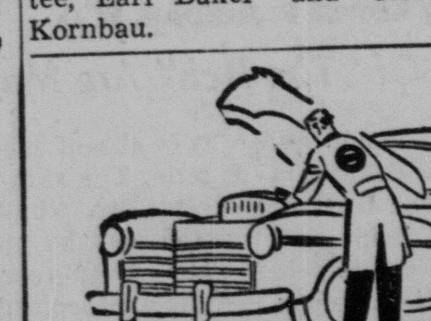

Mrs. Walter Berg has returned to her home after spending 22 days in Salem City Hospital for medical treatment.

Mrs. Norman Kornbau accompanied Mrs. Clarence Barnes and Mrs. Stella Stokes of Leontonia to Cleveland and spent several days in the home of Mrs. Stokes aunt Mrs. Villa Barnes.

Mr. and Mrs. Norman Kornbau and sons were recent guests of their son and daughter-in-law, Mr. and Mrs. Edgar Kornbau of Greenford.

Mrs. Albert Ritchie was hostess to the South Side Club Wednesday with Mrs. Joseph Less and Mrs. Margaret Spear as guests. Mrs. Less, Mrs. Louis Atkinson, Mrs. Lloyd Culler and Mrs. Howard Stouffer winning honors in 500. Mrs. Allen Stirling will entertain the club in two weeks.

Men's Brotherhood of the Methodist Church met in the church social room Wednesday evening. Clarence Baker, president, had charge. John Volpe had charge of devotionals. Lunch was served by the social committee, Earl Baker and Norman Kornbau.

## C. Of C. Plans 1952 Election

## Reports Scheduled At Tonight's Session

LEONTONIA—The monthly meeting of the Chamber of Commerce will be held at the Legion headquarters this evening at 8 o'clock. Election of officers for 1952 will be held. Three applications for membership are to be considered.

The executive committee will give its report and make recommendations for the reorganization of the Chamber's committees. An auditing committee report will be given. The participation in Boys' State and Boys' Civic Day in conjunction with the American Legion will be discussed.

After the business meeting, a defense picture, "You Can Beat the A-Bomb," will be shown under the auspices of the Volunteer Fire Department who will be guests at this meeting.

## Leontonia Churches

The Deborah Class of St. Paul's Lutheran Church will hold their monthly meeting at the church parlors Wednesday evening with Mrs. Richard Caldwell, Mrs. Lloyd Holloway and Mrs. Ewing Holloway associate hostesses. A good attendance is desired.

## Leontonia Personals

Mr. and Mrs. Joseph Weikart are the parents of a daughter, born Saturday at the Salem City Hospital. Mrs. Weikart is the former Ruth Swaney of Salem. Mr. and Mrs. David Swaney of Salem and Mr. and Mrs. W. G. Weikart are the grandparents.

C. E. Holt Sr., was advised Saturday of the death of his sister-in-law, Mrs. Rose Holt at Johnstown, Pa., Friday. Her husband, Edward Holt, a brother of Mr. Holt's died just a week ago.

Paul W. Atkinson of Columbus spent the weekend with his parents, Mr. and Mrs. William Atkinson.

Mrs. William Gross and daughter, Christine, of Dayton are visiting Mrs. Gross' parents, Mr. and Mrs. C. J. Stewart.

## "Ike" First Entered In New Hampshire Race

CONCORD, N. H. (AP) — Gen. Dwight D. Eisenhower today was the first candidate in either party to be entered officially for the March 11 presidential preference primary—the first in the nation.

Actually, Eisenhower's name was entered Jan. 17 by a group of Republicans headed by Gov. Sherman Adams but he didn't qualify until a 10-day period allowed for withdrawal expired yesterday.

Because Eisenhower didn't ask to be withdrawn his name will remain on the Republican ballot. State officials construe a candidate's silence as consent.

Candidates have until Wednesday to get their names on file.

## EX-MAYOR SUCCEUMS

CLEVELAND (AP) — Funeral services will be held tomorrow at the Baptist Church at nearby Avon for William C. Wagner, 68, former mayor of the town. He died yesterday.

## ASPHYXIATED IN FIRE

LORAIN (AP) — Daniel Jones, 30, was asphyxiated yesterday when a chair he was sitting in caught fire and filled the room with smoke.

There are butterflies in the Arctic and, because of the short summers there, they spend two summers and a winter as caterpillars, and another winter in the pupal stage.

## Damascus Dorcas Group Guests In Mounts Home

DAMASCUS—Members of the Dorcas Society met with Mrs. Elsie Mount Thursday for an all day meeting. Three comforts were knotted and two of them were finished with binding around the edge. A coverdinner was served to 15.

## Damascus Personals

Emmett Goist of Austintown is assisting his brother Ray Goist with the farm chores. Ray Goist is on the sick list.

## Brownies Write Valentines

Brownie Scout Troop 1 worked Wednesday on Valentine verses to put on Valentines for the parents. The Brownie Scouts who will fly up to the Scout troop discussed Scout laws. The next meeting will be Jan. 30 after school.

## Doctors Tell Winchell To Take Month Rest

MIAMI BEACH, Fla. (AP) — Doctors planned further tests today for Broadway Columnist Walter Winchell, who said he has been ordered to "drop everything" for at least a month.

Winchell announced during his broadcast last night that he had been ordered to rest and later said the decision followed an examination by his physician and a heart specialist.

Winchell said they told him his condition was "good" but if he didn't stop all activity he "might not be around to talk about it in another week or a month."

## 18-Day Transit Strike Ends In Baltimore

BALTIMORE (AP) — The 18-day-old transit strike was officially over today and buses, streetcars and trackless trolleys were to start rolling again tomorrow morning.

The walkout that had hobbled, but not crippled, this sixth largest city since Jan. 10, ended last night when 3,200 striking drivers voted 2,461 to 100 to accept a three-year contract giving them a total wage increase of 21 cents an hour, plus other benefits.

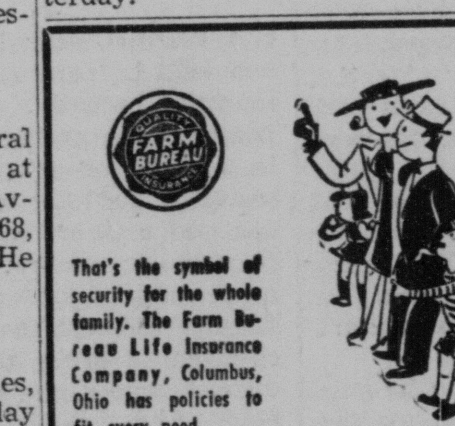

Negotiators reached agreement early Sunday morning after a 10-hour session.

## KIWANIS TO HEAR JUDGE

Common Pleas Judge Joel Sharp will be speaker at the Kiwanis Club meeting at noon Thursday in the Memorial Building. Attorney Ralph Atkinson is program chairman.

## CLEVELAND DOCTOR DIES

CLEVELAND (AP) — Funeral services will be held Wednesday for Dr. James Raymond Ripton, 56, chief of staff at St. John's Hospital. He died unexpectedly yesterday.

## Bride Helps Police Nab Murderer Husband

LOS ANGELES, (AP) — A bride of a week who says her husband's lies about another woman made her suspect he was a murderer got the credit from police today for cracking a month-old strangulation killing.

Officers said Robert L. Pennington Jr., 31-year-old machinist, admitted yesterday slaying his former common law wife, Mrs. Helen Beitz, 31, in a jealous rage last Dec. 7 or 8.

He then led a party of police to a shallow grave in a flood-washed ditch where the body was recovered. Later he was booked on suspicion of murder and jailed.

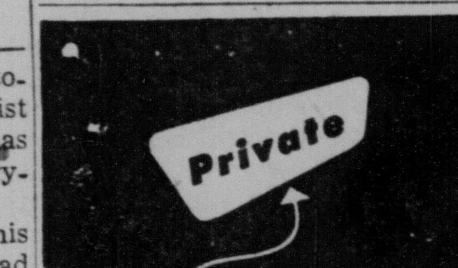

Pennington's bride, the former Mrs. Barbara Eras, 29, said her suspicions were aroused last week when she caught him in lies.

## ROTARY TO SEE FILM

Robert Conroy will show a movie on the Mullins easy method of dishwashing at the Rotary Club meeting noon Tuesday in the Memorial Building.

# Two Undeclared Cage Teams Remain In College Ranks

## Duquesne, St. Bonaventure Hold Unblemished Records

NEW YORK (AP)—Down, down goes the list of major unbeaten college basketball teams and today there were but two quintets in the nation with unblemished marks—Duquesne and St. Bonaventure. And on Feb. 11, assuming the two continue their winning ways, there will be only one because they meet on that date. Duquesne won't have it easy starting to-night, though, when it shoots for No. 12 against Villanova. The Dukes then face Baldwin-Wallace tomorrow and Akron Wednesday.

**THE BONNIES**, with 12 in a row, aren't scheduled to play until Saturday, when they tangle with Loyola of Chicago. At the fate the mighty have been biting the dust, it will be surprising, indeed, if the season produces one undefeated team. Illinois and Kansas, running 1-2, respectively, in last week's Associated Press poll, were on the outside looking in after seeing their proud skins snapped Saturday night. DePaul polished off Illinois, 69-65, and Kansas State thumped Kansas soundly, 81-64. Illinois had won 11 straight and Kansas 13. The defeat of Kansas has the most significance. The Jayhawks were engaged in a nip-and-tuck title with State for the Big Seven lead. Both showed 3.0 marks in the league until the game. Now K-State boasts 4.0 to 3.1 for its rival. They have another date at Lawrence on March 7, so Clyde Lovellette and Co. will have a chance to recoup. No other team has a chance in the Big Seven race.

**ILLINOIS' SETBACK** meant nothing other than breaking its streak. The Illini still are undefeated in the Big Ten with a 4.0 slate compared to 5.1 second place Iowa, which, incidentally, lost its first game last Monday. Illinois has two games on tap this week, Purdue tonight and Ohio State Saturday. On the basis of past performances, the league leaders should have no undue trouble with either. In the Missouri Valley, it's beginning to look as though St. Louis, which has been the bridesmaid to Oklahoma A. and M. for two years, will come through this time. St. Louis took care of its tormentors Saturday, 48-40, and now shows a 4.0 record in league play compared to the Aggies' 2.1. They play again on March 6. In the Southeastern and Southern Conferences, nothing has happened to upset the leaders, namely, Kentucky and North Carolina State, except a couple of close games which may or may not indicate trouble ahead.

**KENTUCKY**, undefeated with a 6.0 record, had to go right down to the wire to defeat Alabama, 71-67, while NC State (8.0) was forced into an overtime before emerging with a 58-53 decision over North Carolina. Florida is Kentucky's closest pursuer with 5.1 and West Virginia is hot on the Wolfpack's trail with 6.1. In the traditionally strong Skyline Conference, the three-team race has dwindled to two. Utah lost two games during the week to drop out of contention. Brigham Young holds down the top with 5.0 and Wyoming, two-time winner last week, shows a 5.1 record.

## Mangrum Scores Win In Phoenix Open

PHOENIX, Ariz. (AP)—Money is nothing new to Golfer Lloyd Mangrum, but today he treasured a distinction which hadn't come his way before. That was a victory in the \$10,000 Phoenix Open—and a \$2000 check to commemorate the event. Mangrum, one of the best gallery attractions in the sport today, made off with his initial triumph yesterday when he finished the 72-hole tournament with a 10 under par 274. E. J. (Dutch) Harrison, shot 67 and a 279 total for second place and \$1400 in prize money. Ted Kroll took third with a 73 for 280. Julius Boros wound up with a 73 and tied for fourth with Cary Middlecoff and Fred Hawkins, at 281.

## Potters Score, 47-39 Win Over North

The East Liverpool Potters, bouncing back from their fourth loss which Salem handed them, beat Akron North Saturday evening on their own floor, 47-39. The win, No. 9 for the Potter, was sparked by Paul James' 17 markers and Len O'Hanlon's 13 points. The Potters held a slight 35-30 edge going into the last frame but outscored their foes, 12-9. The Potters Reserves also tallied a win in the preliminary game, 45-44.

## Tribe Farm Club To Use Negro Players

CLEVELAND (AP) — The Cleveland Indians said today they had some "promising" Negro players to send to their Dallas, Tex., farm team. Dick Burnett, owner of the Southern Club, has a working agreement with the Tribe. He announced yesterday he was going to use Negro players for the first time in the history of the Class AA Texas League. The Indians said his announcement came unexpectedly but that they did have some Negro players in their farm system who could help the Dallas club on their way towards the Majors. They did not name the players.

**BURNETT EXPLAINED** he made his decision because the new Dallas Professional Football team announced it would use Negro players. "Baseball must meet the competition," Burnett declared. Meanwhile, during a visit to San Diego, Calif., a Negro player who became a star for the Indians announced he was going to do even better. Big Luke Easter declared he expects to hit more than 40 home runs for the Tribe this year. After explaining his injured left leg felt strong again, Easter

said, "I got 27 last year with one good leg. With two good ones, I expect I should hit more than 40." A Tribe spokesman said he would not "be a bit surprised" if Luke did it.

## Ken McGregor Tops Sedgman For Title

ADELAIDE, Australia, (AP)—Big Ken McGregor pulled a startling upset today when he whipped Frank Sedgman, 7-5, 12-10, 2-6, 6-2, to win the Australian tennis championship. In the battle between the two Aussie aces McGregor staged two brilliant rallies to win the first two sets against Sedgman, generally regarded as the top player in the world. Sedgman led 5-2 in the first set and seemed to have it in the bag. But then he started to make errors, and McGregor reeled off five straight games to take the set. This loss seemed to shake life into Sedgman, and he took a 3-0 lead in the second set. But, again, McGregor, playing like a demon, pulled up to 5-5 and finally won the marathon, 12-10. Sedgman flashed his attacking game and won the third set with ease, 6-2. But after an intermission, McGregor came storming back to take the fourth set and the championship. He never gave Sedgman a chance with his powerful drives, and finished it off with a sweet placement that caught Sedgman on the wrong foot.

# Give it Air and Watch it GO!

TAKE ONE GALLON of good gasoline — 8,350 gallons of ordinary air—mix well and feed in small doses to a Fireball Engine—and what do you get?

Well, mister, we could give you a lot of sparkling adjectives. But the closest we can come to describing the result is to tell you—it's something like the mighty thrust of an airliner — swooshing down the runway for a take-off.

All of which is another way of saying that this newest and finest of Buicks can rev up the highest horsepower in its distinguished history.

Now, you seldom need 170 horsepower. A lot of owners will never let it full out. But it's nice to know it is there for emergency. It's nice to know you can boss it around — even if you use no more than an eighth of it at 40 miles an hour.

BUT THAT IS ONLY one side of the story. Buick engineers never do things by halves. In the process of getting this whopping new charge of power, they also came up with more miles per gallon from gasoline.

And the way they did it is one of the neatest bits of ingenuity we've seen in years.

Instead of building a whole new engine — they focused on ways to feed a better mixture to the great Fireball Engine they already had. A mixture—that is—of fuel, which costs money, and air, which is free.

The result was the Airpower Carburetor — a four-barrel automatic—which works on a booster principle.

Two barrels supply all the fuel you need for most of the miles you drive — and they're sized and designed to supply the just-right thrifty mixture of fuel and air for anything from smooth-running idle up to some 40 or 50 miles an hour.

But when you call for more power—for a quick spurt out of a tight spot — for an unbroken gait up a steep hill—or for full-throttle operation — the reserves go into action.

You have two more barrels — to feed the just-right thrifty mixture for extra power — something like a "second wind."

LIFE'S GREAT behind this great-powered eight, but that's only part of the story.

The rest, we can best tell you with a new Buick right at hand.

It's a story of interior styling stepped up to a new plateau of excellence and taste — a story of silencing to a point where a whisper almost sounds loud inside this car in motion—a story of bigger brakes and a smoother ride — and of Power Steering\* as you have always hoped it might be perfected.

It's a story you need to know, if you want to be up-to-the-minute on what's what in 1952 cars.

How about coming in and getting that story soon?

## Mail For Salem Frequently Ends Up At Village Of Solon

By PEARL WALKER

Hi Neighbor! This friendly greeting comes to Salem from Solon, up in Cuyahoga County. Why this neighborly salutation? Because of the similarity of the names of this city and that village the mail in our postoffices are continually getting mixed up.

Mary Patterson, Solon's postmaster, who sent the greeting, says "There are times when I'm sure I must know most of your population. The late postmaster, A. Earl Beardmore, brother of acting Postmaster Lawrence D. Beardmore, always called me "Miss Sent."

When you address mail to So-

lon be sure to make the letters plain so that they don't look like Salem, and vice versa, advises Superintendent of Mails Ray Reasbeck.

Solon, founded in 1820, has a population of 3,571. Its Hi Neighbor

bor greeting, published by the Women's Service Clubs there describes the village as "a small town with a big heart."

Four churches, three schools, a library and several manufacturing firms are listed. James A. Garfield, martyred president, was one of the first pastors of the Disciples of Christ group there. The postoffice, on Aurora Rd, has two rural deliveries.

Of the other 22 Salem postoffices in the United States, Salem, Oregon, is second in causing confusion in addresses at the local postoffice.

Salem, Oregon, with a population of 43,064 is believed to be the largest Salem in the nation. Founded in 1840, it has been the capital of the state since 1859.

Salem, Ill., also has an Ohio Ave, which makes another complication for local postal workers.

Salem, Mass., which was founded in 1626 by Roger Conant, ranks second in size among the Salems. Rich in historical background, it has a population of 41,842.

Salems Also Confusing

This city (our Salem), which will mark its 150th anniversary in 1956, is among the oldest by this name. Other states having a postoffice named Salem include, Alabama, Arkansas, Indiana, Iowa, Kentucky, Maryland, Michigan, Nebraska, New Hampshire, New Jersey, New Mexico, South Carolina, South Dakota, Utah, Virginia, West Virginia, New York and Wisconsin.

Seven villages in this area have the distinction of being the only one by that name in the United States to have a postoffice. They include Greenford, East Palestine, North Georgetown, Homeworth, Leetonia, Hanoverton and New Waterford.

Besides Ohio, Alabama, Iowa and Kansas each have a Beloit. Six states have a Damascus with a postoffice. They include Ohio, Arkansas, Georgia, Maryland, Pennsylvania and Virginia.

East Rochester is one of three postoffices by that name. They are located in Columbiana County, New York and New Hampshire.

Two Columbians are in Ohio and Alabama, while three Washingtons are in Ohio, Pennsylvania and New York.

There are 10 Winonsas in these states as follows: Ohio, Kansas, Michigan, Minnesota, Mississippi, Missouri, Tennessee, Texas, West Virginia and Washington.

Ten Lisbons are located in Ohio, Georgia, Illinois, Iowa, Louisiana, North Dakota, Maine, Maryland, New Hampshire and New York.

**OPEN-AIR JOB**—Chester C. Hyland, taking his dog, Ginger, for a spin, says his 1903-model jalopy is just right for the weather and roads in St. Louis Park, Minn. Even in 15-below cold, there's no starting problem—because the car has just one cylinder to warm up. What's more, the ample road clearance takes it through snow drifts that would stall today's low-slung autos. Hyland would make only one improvement—addition of a windshield.

## Winona Group At Extension "Save" Series

WINONA — There were 34 present when the second in the series of extension meetings was held at the home of Mrs. Richard Stamp. The morning demonstration was in charge of Mrs. William Hoopes. She showed how to make corsages from old nylon hose.

Following the coverdinner at noon, leaders, Mrs. A. G. Oliphant and Mrs. William Outland were in charge of the subject "Stretching The Food Dollar." Mrs. Ronald Hoopes was elected as Home Council Member to succeed Mrs. Richard Stamp when her appointment time expires. Other Butler Township Home Council members are Mrs. Raymond Brandt Jr. and Mrs. Wilmer Satterthwaite.

The next Home Demonstration meeting is a Craft Day for Knox, Butler, Salem and Perry Townships and the Willow Grove group. The meeting will be held jointly at Willow Grove grange hall Thursday Jan. 31 from 10 a. m. to 3 p. m. Textile painting, glass etching and handbags are the demonstrations. Local people helping with instructing are:

Textile painting, Mrs. William Hoopes and Mrs. Richard Stamp and glass etching, Mrs. John Stewart. For further information contact the instructors or the Extension office at Lisbon or Mrs. Evelyn Boigegrain, general chairman.

Everyone interested is invited to attend, but advance registration helps those in charge to plan material, space, etc. The noon meal will be a sack lunch with coffee furnished.

## Winona Phone Users Complain To State

State Rep. Delmar O'Hara filed a formal complaint today with the Public Utilities Commission of Columbus on behalf of 301 subscribers on the Winona exchange of the Ohio Associated Telephone Co.

The 301 subscribers had signed a petition charging the company with poor and inadequate telephone service.

Failure to maintain lines properly, the use of obsolete equipment and the overloading of lines—in that the law provides for only 10 subscribers per line and the petition charges there are up to 17 on a single line—are among the complaints made by the residents.

They also charge that the company refuses to extend lines to take care of new subscribers and claim that several applicants have been waiting four years or more for telephone service.

The petitioners request that the Public Utilities Commission transfer the service from the defendant company to the Ohio Bell Telephone Co.

There will be a hearing on the complaint within 30 days, Representative O'Hara said.

## New Waterford Bank Officers Renamed

NEW WATERFORD—Officers were re-elected at the meeting of shareholders of the New Waterford bank recently.

Resources have increased by more than 600 per cent since 1940 while capital accounts are up by more than 30 per cent over the same period.

Directors were re-elected as follows: W. H. Baughman, W. G. Filmer, William E. Ferguson, R. W. Koch, J. A. Rudabaugh and Harry C. Warrick.

Directors in turn re-elected the following officers:

R. W. Koch president, W. H. Baughman vice president; William E. Ferguson, vice president and cashier; Catherine C. Ball, assistant cashier; Charles E. Koch, assistant cashier in charge of personal loans.

Others in the bank staff included: Mary Lou Sutherin, Leona Upole, Shirley Guster and Sally Gotthardt.

## Floods

(Continued From Page One)

were evacuated at Zanesville when the Licking River flooded portions of that town.

First to feel the Ohio river's might was Steubenville and the area just to the south on both sides of the swollen stream. One hundred eighty families moved from their homes in Jefferson County, and merchants moved from 22 business houses.

Across the river at New Cumberland, W. Va., 200 families moved out. Other families evacuated at Wellsburg, W. Va.

Next area to retreat before the river was at Wheeling, W. Va., and Bridgeport, Martins Ferry, Bellaire and Shadyside O. This might well be the hardest hit spot along the river.

Rescue agencies estimated a total of 2,000 persons already evacuated in the area, including 109 families at Wheeling and Wheeling Island.

The Ohio Valley Board of Trade said 18,000 persons and 3,300 buildings will be affected by the crest of the flood in Wheeling alone. This means that many buildings will have water in them and that many persons will be evacuated or will live in watery homes.

River-side industry in the area shut down tight, throwing hundreds of workers out of jobs.

## Fractional Gains Shown By Stocks

NEW YORK (INS)—Aviation stocks and selected issues led the stock market higher in the first hour of today's session.

However, most gains were limited to fractions as uncertainty over foreign development.

First hour volume totaled 300,000 shares.

Featuring the aircraft was Douglas, which climbed 1 1/4 points. Boeing, Lockheed and United Aircraft all scored gains.

General Tire & Rubber made the biggest eye-catching advance. It opened on a 6,000 share block at 66 1/4, up 4 1/4, and held to a good part of the drive in later deals.

Texas Gulf Sulphur, another splitup possibility, was up 1 1/2 points. Cities Service which spurred a point at the opening, lost a portion of its rise. Atlantic Refining was as much as 1 1/2 points lower under pressure from profit taking.

Issues going higher were American Cyanamid, Mid-Continental Petroleum, Goodyear, Chrysler, Bethlehem Steel, Southern Pacific and Motorola.

## Germans Want In Pact Or Won't Give Troops

PARIS (AP)—The West Germans say they will not furnish troops for Western defense unless they are allowed in the North Atlantic Treaty Organization.

Their surprise demand for NATO membership, made last night at a meeting of West European foreign ministers, interrupted the six-nation talks on a unified European army.

The snag came as the European diplomatic chiefs announced agreement on broad outlines and fundamental principles of a one-uniform army to function within the North Atlantic setup.

## Blood

(Continued From Page One)

Ohio not covered by the "two-way" plan. "I think it's important that this be known," he said. "The medical society is not opposed to a blood program, we simply have the interest of the community at heart. We should be affiliated with the 'two-way' area."

A "two-way" program, serving both military and civilian needs, requires more blood from any given area, it was pointed out by Dr. A. P. Falkenstein, Salem pathologist. He said the Cleveland national blood program, a "two-way" program, takes 1,250 pints out of Alliance alone in ten trips annually.

Dr. Tom King of Columbiana said he took as a personal affront criticism of the medical society's earlier stand. "I had a great deal of experience with the blood donor program in World War II and am wholeheartedly in favor of it, and feel badly that the physicians are being criticized for the society's stand."

Mrs. Henry Ostermann, executive secretary of the East Liverpool Red Cross chapter, said, "I feel that the Red Cross and Medical Society are being criticized too severely. We have both been put in a bad light."

### Hospitals on Exchange Plan

Dr. Jones submitted letters from the county's three hospitals, City Hospital and Central Clinic in Salem and the City Hospital in East Liverpool, asking that the society put them and their staffs on record as agreeing to participation in the "one-way" plan.

At present the county's hospitals are hard-pressed to meet blood needs. Physicians feel the "one-way" program will aggravate the problem. All three hospitals operate on an exchange basis, asking that patient friends or relatives replace at least twice the amount used. Patients often prefer to pay \$25 per pint but, as the doctors observe, "that doesn't help our blood banks—we can't transfuse dollars."

### Four Calls in Salem

The Red Cross directories call for mobile units from the Pittsburgh area to make 18 visits during the year—four in Salem, six each in East Liverpool and the rural areas, and two in Wellsburg. They will take 125 pints in each trip.

Miss Hazel Lynn, executive secretary, and Mrs. Nina Jones, office secretary, represented the Salem Red Cross Chapter while Robert Henry of East Palestine represented the Columbiana County Chapter.

Salem City Hospital was represented by Superintendent C. J. Mosher and Central Clinic by Albert Hanna. About 35 attended the meeting held in Lisbon American Legion home.

Veterans' organizations were represented by Probate Judge Louis Tobin of East Liverpool.

### Navy Evacuates 20,000

WITH NAVY AMPHIBIOUS FORCES IN KOREAN WATERS (AP)—The U. S. Navy said today approximately 20,000 Korean refugees have been evacuated to South Korea from islands off Communist-held northwest Korea. There were 130,000 more refugees still on the islands.

the new truck and other equipment, and a siren will be purchased in the near future and used to call the volunteers to their stations in the event of emergency.

Early in the organization of the department the men found an opportunity to test their newly-acquired training when a fire broke out in an Ellsworth home. Although the blaze necessitated the calling out Salem's firemen, the Ellsworth force did manage to get in a few "good looks."

### Pumper Truck Ordered

Up to now the men have been using a 1924 vintage fire truck as their main piece of equipment. The new truck, which contains a 500 gallon tank and a 500 gallon pump, was promised for delivery last year and is expected to arrive momentarily. It is being paid for by the township trustees.

The 23 men who compose the force are Robert Baird, Francis Bare Jr., Cecil E. Beardsley, Ray A. Bowers, Harry Bunts Jr., Charles Crawford, Floyd J. Ewing, John S. Grace, Lloyd Helsel, Dr. Duncan K. Hogg, William R. Kabbine, W. Ira Keslar.
